*Supporting the Best Care*  
For Children and Their Families

This year's proceeds will benefit the Rush University Children's Hospital — dedicated to delivering comprehensive, compassionate, family-centered care to children — while also addressing critical research and social service needs across the Medical Center and in the community.

Visit our event page at [www.rush.edu/casinonight](http://www.rush.edu/casinonight) for sponsorship information, tickets and details on how a night of blackjack, craps and roulette helps children receive the care they need to flourish.
